A healthy mind in a healthy body is key to a much happier life. Deverneuil Psychology's goal is to provide clients with the skills needed to achieve this. Masterplanners was engaged to help Deverneuil Psychology provide a space with a nurturing, relaxed and warm environment to make people feel at ease before, during, and after therapy.

Masterplanners worked closely with the client to understand their aesthetic and spatial functionality requirements. It was essential that the spaces were arranged strategically and consult rooms were acoustically treated to ensure privacy for the patient. Utilizing mid-toned timber as a feature wall and ceiling, combined with feature lighting, green plants, white walls and grey carpet, a space was created that was fresh, warm and tranquil.
