Karrinyup Shopping Centre

The rapidly increasing dependency on mobile phone usage has created an escalating market demand for mobile phone accessories and repairs. Multiple shops and kiosks catering to this high demand have become a common sight in shopping centres. The challenge for Masterplanners was to ensure APlus Emergency Mobile Repair kiosk stood out above other competitors within the shopping centre.

We designed and fitted out the kiosk to maximise retail display density, ensure ample hidden storage and sustain highly functional repair desks to support quick turnaround of their provided services.

Located within a dark and moody area of the shopping centre, we integrated lighting to create a techy, fun kiosk, bringing attention to all of Aplus' various products and services.
