Zucca Espresso was another coffee retailer Masterplanners had the pleasure to design and fitout their store for. Located at the ground floor lobby of Golden Square, one of Perth’s most impressive office towers, it was essential that the design of the coffee shop complemented the contemporary architecture of the building.

A bold, attractive, clean and contemporary design was incorporated where the food and beverage displays worked seamlessly alongside the prep area and the open dining area. Timber plank cladding wrapped around the side wall all the way up to the feature ceiling and back down to meet the bold veins of the marble counter created an impressive, though small, shopfront. Industrial looking pendant lights hanging from copper pipes and striking graphics enhanced the contemporary feel of the coffee shop thus complementing the beautiful architecture of the building foyer.
